EDUCATION

Galgotias University, Greater Noida

Bachelor of Technology (Hons.) in Computer Science And Engineering - 8.01 CGPA

Noida , India

July 2019 – June 2023

PROJECTS

CB-Testing Fixed Capacity | Selenium , Java ,Cucumber, PostMan

December 2023 - Present

DESCRIPTION - The project I worked on was for Virgin Money, a banking and financial services brand operating in the United Kingdom as a trading name of Clydesdale Bank plc. The project aimed to enhance the testing process for their banking software by implementing automated test cases using Cucumber and managing API's using PostMan and Rest-Assured.

ROLE- As an Automation Tester for the UK-based Clydesdale Bank, my role involved ensuring software quality by writing feature files in Cucumber with StepDefinitions and performing API testing using Postman and RestAssured. I collaborated with stakeholders to gather requirements and translate them into clear Gherkin-based feature files, creating comprehensive test scenarios. Additionally, I contributed to the automation framework's design and maintenance, writing scripts to automate test scenarios, perform API testing, and streamline testing processes.

Policy Bazaar Website | Selenium, Java , TestNG , Jenkins

September 2023 - December2023

DESCRIPTION - I developed an automation testing framework for the PolicyBazaar website using Selenium, TestNG, and Cucumber. The framework ensured reliable testing of core functionalities like policy comparison and purchasing. I integrated the framework with Jenkins for continuous testing and used Selenium Grid for parallel execution across multiple environments, reducing test execution time. The project improved the efficiency and reliability of the testing process, supporting high-quality releases.

EXPERIENCE

COMPANY – COGNIZANT TECHNOLOGY SOLUTIONS Pvt. Ltd.

December 2023 - Present

ROLE- Automation Test engineer

SKILLS- JAVA ,Selenium WebDriver , Cucumber BDD ,TestNG , POSTMAN

COMPANY – COGNIZANT TECHNOLOGY SOLUTIONS Pvt. Ltd

June 2023-December 2023

ROLE- Programmer Analyst Intern

SKILLS- Java , TestNg ,Selenium WebDriver , Cucumber BDD

CERTIFICATIONS

COMPLETED Selenium with JAVA ,Cucumber course from UDEMY

March 2024

→ LINK- [Selenium With Java](#)

COMPLETED SUMMER TRAINING FROM DRDO , NEW DELHI

July 2021 – August 2021

→ LINK- [DRDO CERTIFICATE](#)

SKILLS

Language | Java , JavaScript

Framework | Selenium Web Driver ,Cucumber BDD ,TestNG , Rest-Assured

Tools | SoapUI , Postman , Jenkins , Jira

Data Base | MySQL
